

## Wayne County Mobile Device Mgmt. Enrollment

### How do I enroll my device?

Please follow these step-by-step instructions to enroll your device.

#### Android devices:

1. Home Screen > Open Google Chrome Browser
2. In open browser window type url address > [www.waynegov.com/mdm](http://www.waynegov.com/mdm)

3. On the County Mobile Device Management page select > **Mobile Device Management Policy**. Read and Sign this document (electronically). Please have these submitted by January 31 to avoid any interruption to County resources.

8. Next you should receive the screen “KLMS Agent”. **Check the box** to confirm you have read the terms and conditions. **Select > Confirm.** *\*\*If you do not receive this screen move to the next step.*

KLMS Agent

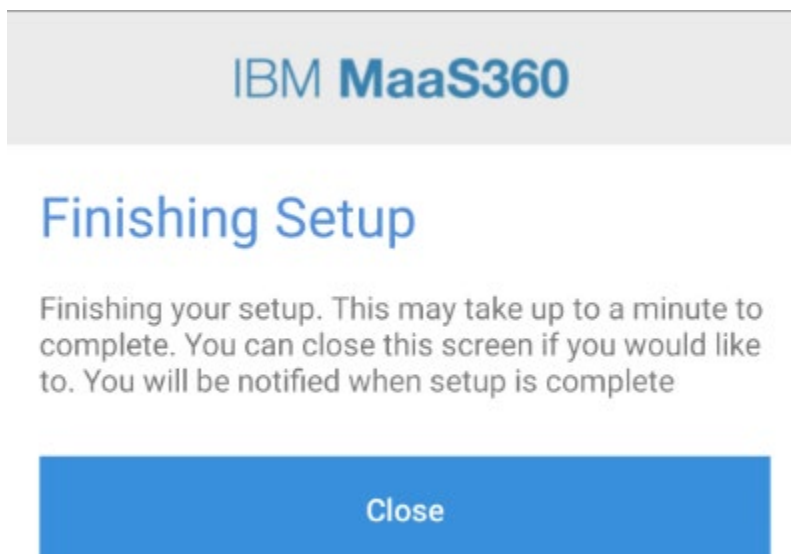

[Samsung Knox Privacy Policy](#)

Samsung Electronics (“Samsung”) Knox offers a comprehensive mobile security solution for business and personal use by providing additional security and protection for the Android operating system. In addition, it provides enhanced security for your device by offering an automatic update service for its Security Enhanced (SE) for Android. This automatic update service will continuously update new security policies to detect and counteract new malicious code, and other security risks on your device. You also understand and agree to the mechanism that routes network data traffic through a proxy server or VPN gateway by default. In order to validate and activate the Knox solution and to provide the automatic update service for SE for Android, Samsung will need to process certain information such as your device identifier(s) device software

I have read and agree to all the terms and conditions above.

CANCEL CONFIRM

9. After confirming KLMS Agent you should receive a “Finishing Setup” screen. **Select > Close.**

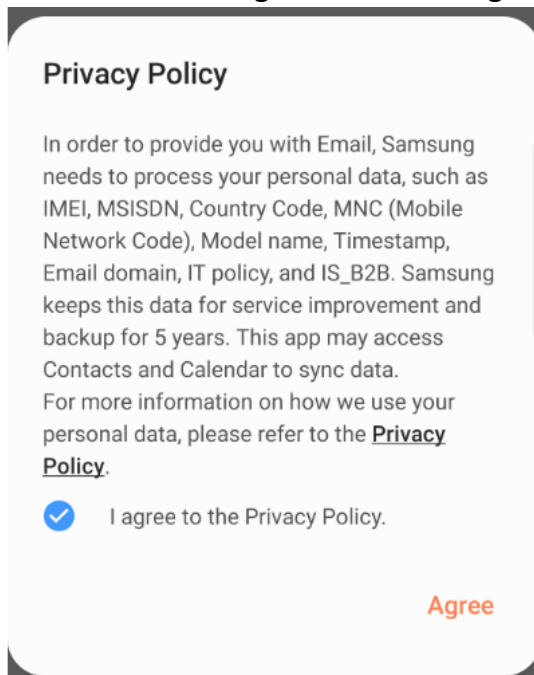

IBM MaaS360

## Finishing Setup

Finishing your setup. This may take up to a minute to complete. You can close this screen if you would like to. You will be notified when setup is complete

Close

10. Your email should configure itself at this point and you will receive a “Privacy Policy” screen. **Check > I agree** and **Click > Agree**.

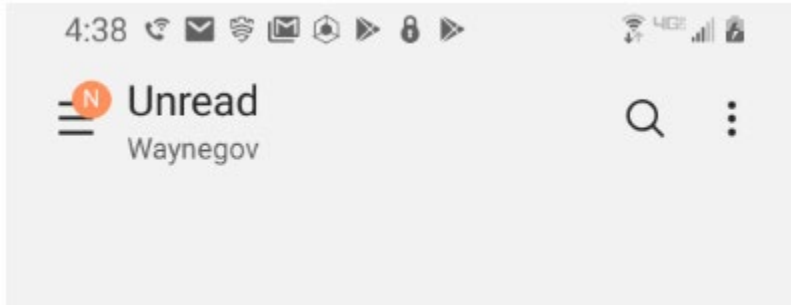

11. You may receive a message to “Update the security settings for Waynegov?”. If so **Click > Update**.

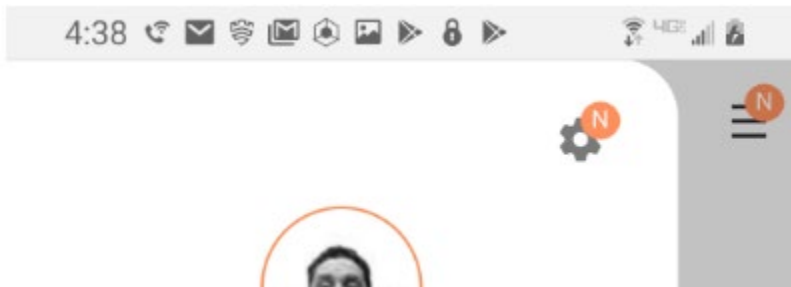

12. Your Email should be configured. You may need to wait upto 5min to see your emails populate in your inbox. If you did not receive the screens from Steps 10 or 11 please open the native Email client on your device. On Samsung Galaxy your email client should look like this:

13. Open your email app to verify you are receiving emails. If you are not you may have to update your email client. To do so follow the below instructions.
14. Open the Email App. Check the top left corner for an orange indicator. If present tap the orange icon.

15. On the next screen select the gear icon in the top right.

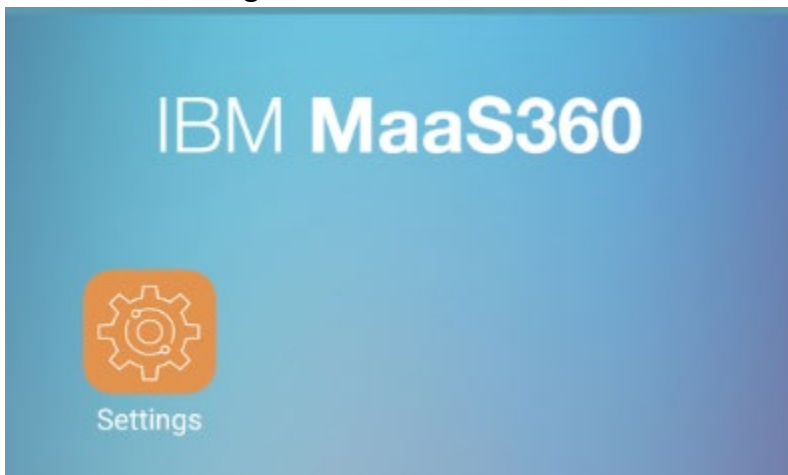

16. At the top you should have an "Update app" message. **Select > Update.**

17. Agree to all remainder prompts until the update process begins. Once app is updated, verify that you are receiving emails.
18. Lastly verify your device meets compliance by opening the Maas360 App you installed earlier. **Click > Maas360.**

19. Next **Click > Settings.**

20. Next **Select > Compliance Status.** Select any issues that don't meet compliance and make the required change. Ie: PIN out of compliance: Must change PIN to 6 digit number.
