COVID-19 #7 March 16, 2020

### **COVID-19 Case Confirmed in Wayne County, Quarantined on SJAFB**

**Wayne County, NC** – The Wayne County Health Department has received notification that the presumptive positive COVID-19 test announced earlier this week has been confirmed by the Centers for Disease Control and Prevention. This remains the only positive test in Wayne County at this time.

Seymour Johnson released the following statement: “The dependent of an active duty Airman assigned to Seymour Johnson Air Force Base followed SJAFB recommended protocols and called the 4th Medical Group to self-identify for testing. At that time, a home- quarantine was initiated for the household, per the Centers of Disease Control and Prevention guidelines. Seymour Johnson is committed to protecting our Airman, civilian employees, and all their family members. We are working closely with Wayne County public health officials and adhering to CDC guidelines for COVID-19.”

Citizens can help prevent the spread of COVID-19 by washing your hands for 20 seconds, avoiding touching your face, staying home if you are sick, and covering coughs and sneezes with your elbow. If you begin to have symptoms related to COVID-19 (fever, cough, shortness of breath), or are concerned you may have been exposed to COVID-19, the Wayne County Health Department advises you to contact your primary care physician. If you do not have a primary care physician, please call the UNC Health Helpline at 1-888-850-2684 before visiting an urgent care location, hospital, or emergency room. In all situations, if you feel you are experiencing a life-threatening emergency, call 9-1-1.

The Wayne County Health Department has established a website with reliable information related to COVID-19 that can be found by visiting [www.waynegov.com/coronavirus](http://www.waynegov.com/coronavirus).
